- Assembly time: 5 minutes.
- Packaging carton
- Packing units 1

#### Product Description

Self-adjusting, wobble-free, single column table base, stainless steel, for round and square table tops to 120 cm, The table frame is used as a folding table or fixed version. FUNCTION: put the table frame with the firmly welded arch (two-point contact) to the ground, then lower the adjusting side to the ground. This moves to the left or to the right until both ends of the bottom are touching. The weight of the bar is spread out and stable jammed, the table does not wobble.

For large bumps raise the table a second time. The same goes for yielding soils such as grass or gravel.

## LC System table Columbus series ST-Sp1

### Columbus series table ST-Sp1

- Table frame Spider, single column
- Length 60 cm
- Depth 60 cm
- Height 72 cm
